WORK HISTORY

○ **Compounding Specialist** | Jubilant HollisterStier - Spokane, WA

11/2020 - Current

- Managed 3rd shift compounding team, meeting production requirements daily given available manpower
- First line of contact regarding problems, or setbacks requiring path forward. Used critical thinking to evaluate solutions, made effective decisions
- Maintained strong communication with neighboring departments and leadership, ensuring all parties are well informed, equipped with accurate information and timeframes
- Reviewed batch records, and manufacturing process procedures. Ensuring procedures are easy to follow, and handwritten entries are error free

Process Tech IV, Compounding | Jubilant HollisterStier - Spokane, WA

04/2018 - 11/2020

- Trained to manufacture over 20 different compounds across two separate manufacturing lines
- Trained new hires to utilize compounding equipment, and follow procedures to manufacture several compounds
- Worked closely with compounding team to manufacture bulk pharmaceutical drug substances. Governed by the FDA, followed strict timelines and instructions to perform job functions
- Maintained strong aseptic technique to fulfill requirements to work within ISO classified cleanrooms

Process Tech II, Packaging | US Tech Solutions - Spokane, WA

11/2017 - 04/2018

- Trained to detect defects in vials filled with pharmaceutical drug substances via hand inspection methods, and semi-automatic inspection, allowing for inspection of up to 100 vials per minute
- Labeled and packaged vials. Ensured vials were labeled properly without any issues, while also ensuring that packaging was in great, presentable condition
- Followed Good Documentation Practice (GDP), ensuring excellent documentation on contract batch records, which includes clear/legible handwritten entries, without error, documented in real time
- Temporary position, contracted to work at Jubilant HollisterStier
